

Trend Technology and Americas Energy Company Sign Professional Services Agreement with Engineering Consulting Services, Inc.

Knoxville, TN-September 29, 2009- Trend Technology Corporation (OTCBB:TRET) and Americas Energy Company (AEC) announced today that AEC has entered into a contract for professional engineering services with Engineering Consulting Services, Inc (ECSI). ECSI will oversee all of our engineering, site planning, permitting, environmental planning, risk management and mine optimization plans. ECSI's Headquarters are located in Lexington, Kentucky. With four additional offices strategically located throughout the state of Kentucky.

“When we started putting our business plan together we set the expectation that we wanted to work with the best of class in our industry. We are exceptionally happy to bring Steve Gardner and the ECSI family aboard. Their 25 years of experience in the coal industry will assist us in operating our projects at the highest level of efficiency. As we begin operations next week on the Hance seam at the Upland Church surface mine project in Bell County, Kentucky we are confident that the ECSI team will insure that our mining plan produces coal at the highest levels attainable ” said Chris Headrick, President and Co-CEO of Americas Energy Company. Mr. Headrick added, “Americas Energy Company’s plan is to push forward with our mine plan and begin exploiting our high grade coal reserves. In the next 60 days we plan to begin producing coal from the Harlan seam on our Rocky Branch permit. To view sample analysis of these two seams of please visit the news section of our website. In the first half of October we also plan to initiate our core sample drilling for our exploration permit on 4,571,000 million tons of proven metallurgical grade coal in Bledsoe County, Tennessee.”

About Americas Energy Company

We are a consolidator of high quality energy properties, operating out of our main offices in Knoxville, TN. We currently operate projects in both Kentucky and Tennessee. AEC invests in energy projects throughout the Americas. We are currently evaluating several additional coal projects, as well as an oil and gas rework project in Southeastern Kentucky.
